Reading

1 What do you eat for breakfast?

2 Listen and read.  09

What do you like for breakfast?

We asked four children about their favourite breakfast foods.

Hi. I'm Abd Allah from Egypt. I sometimes eat bread with jam or cheese. But usually I eat *fuul* and bread for breakfast. *Fuul* is mashed beans. It's great with olive oil and flat bread. I sometimes have an egg with it, too.

Hi. My name is Mariana and I'm from Mexico. My favourite breakfast is *huevos rancheros*: eggs cooked in tomato and chilli sauce. Under the eggs is a tortilla, which is a corn pancake. I always eat a big breakfast because we don't have lunch at school.

My name's Pete. I'm from Scotland. For breakfast, I usually have a bowl of cereal with milk, and then toast with butter. We have lots of different cereals at home, but my favourite is cornflakes. I don't have a very big breakfast because I eat lunch early at school.

Hi, everyone. I'm Huong and I come from Vietnam. For breakfast, I usually have noodle soup. My grandma makes it every morning. Sometimes, I have *xoi*. These are balls of rice with beans. They are wrapped in coconut leaves and are really yummy.

3 Underline these words in the text. Guess their meanings and then check them in the Workbook 4 Dictionary (page 132).

Reading

- 1 Describe what is happening in the picture.

The Concert

The park is full of people.
This is a special day.
A very famous orchestra
Is playing here today.

We've got a picnic blanket
And our favourite things to eat:
Biscuits, cakes and sandwiches.
This is a lovely treat.

We hear the trumpets calling
And we hear the cymbals clang.
We hear the flutes and violins.
We hear the big drums bang.

When each piece is finished,
The people clap and cheer.
The music is amazing.
We're happy to be here.

And now it's early evening,
The sky is getting dark.
The lights from little torches
Are shining in the park.

The concert's nearly over,
The music's very loud.
Now fireworks shoot into the sky
And burst above the crowd.

This is the perfect concert.
This is the perfect day.
It's time to leave the park now,
But I really want to stay.

We all pack up our picnics
And we all go home to bed.
I fall asleep, but I still hear
The music in my head.

Dinosaur data

Dinosaurs lived on Earth for millions of years.

Scientists study dinosaur bones to find out how they lived and what they looked like.

There were more than 700 different types of dinosaur! Some dinosaurs ate plants and others ate meat. Some walked on two legs and others walked on four legs. Some could fly and others lived in the sea. We know they were all different, but no one knows what colour or pattern they were. This is because there is no dinosaur skin left to study.

Dinosaurs disappeared 65 million years ago. Why was this? Some scientists think that a large rock called an asteroid fell to Earth from space. This made the Earth much colder and there was no longer any food for the dinosaurs to eat.

The most famous dinosaur is the T-Rex (Tyrannosaurus Rex). It was 14 metres long and 5.5 metres high: bigger than a house! Its strong tail helped it move quickly. But no one knows how fast it could run. Its teeth were 36 centimetres long and it ate meat. You can see T-Rex skeletons in some museums.

Extensive reading: Fossils

1 Look at the pictures. What can you see?

2 Listen and read. 27

What are fossils?

What do you know about life on Earth thousands of years ago? Fossils give us some clues. Fossils are shapes in rocks that show the animals and plants that lived at this time. To be a fossil, the shape has to be at least ten thousand years old. Sometimes fossils show the shape of the animal or its bones. Other fossils show an animal's footprints, eggs or nest. Some fossils are 500 million years old.

Why are fossils important?

Fossils tell us about the past. We can learn about types of rocks and we can learn about animals that lived a very long time ago.

Where can you find fossils?

You can find fossils in most parts of the world. You can find them on mountains and in seas. You can find them in deserts and on beaches. You can also find them under the ground. Sometimes people find them when they are digging up roads or building houses.

How can I see fossils?

You can visit museums to look at fossils, or you can buy them at special fossil shops. You can also look for your own fossils, especially on the beach or on rocks.

Whales in the desert

Where is the best place to look for whale fossils? The sea or on beaches is the most obvious answer. But in 2011, scientists found the skeletons of 20 whales in the desert in Chile, one of the driest places on Earth. The fossils are between two and seven million years old and are very big – some are the size of a bus! Why were there whales in the desert? Scientists think that in the past this part of the desert was a sea or a very big lake.

3 Read again and write T (true) or F (false).

- 1 Fossils are at least one thousand years old. _____
- 2 You can find fossils at the beach. _____
- 3 You can't buy fossils. _____
- 4 There were whales in the desert in Chile. _____

4 Ask and answer.

- 1 Where can you find fossils in your country?
- 2 Do you like learning about the past? Why?

1 Underline the girl's name. Find her name in the dinosaur name.

2 Listen and read.  28

Girl's amazing fossil discovery

Scientists who study rocks are called geologists. It is the dream of geologists around the world to find out something new about the past. Scientists were very surprised

when this happened to a young girl in England. Daisy Morris, now 10, was walking on a beach with her family.

Suddenly, she saw some black bones sticking out of the sand. She knew it was a fossil and so she dug it out and showed her family. She was only five years old at the time, and she was very interested in fossils.

Her family took the fossil to a geologist called Mr Simpson.

Scientists then studied it for five years. Then, in 2013, they told the world that Daisy's fossil was of a flying dinosaur. In fact, it was a flying dinosaur that no one knew existed before, so this dinosaur didn't have a name.

As Daisy discovered the dinosaur, the scientists called it *Vectidraco Daisymorrisae*. This means Daisy Morris Flying Dinosaur. Scientists think it is 250 million years old. Daisy's dinosaur is now in the Natural History Museum in London.

Mr Simpson said, "I knew that I was looking at something very special. And I was right." He was very happy that Daisy found the dinosaur because it was going to be washed into the sea and lost for ever.

All Daisy's family and friends are very proud of her.

Daisy said: "When I told my friends they said it was cool."

Daisy still loves fossils. She has so many that her family says that her bedroom is like a museum. Daisy wants to be a geologist when she grows up.

3 Read again and answer the questions.

1 How old was Daisy when she found the fossil?

2 How long did scientists study the fossil for?

3 Where is Daisy's dinosaur now?

4 What does Daisy want to be when she grows up?

4 Ask and answer.

1 Are you interested in dinosaurs? Why?

2 Imagine you find a new dinosaur fossil. What is its name?

2 Listen and read. 34

Tennis is a very popular sport all over the world. Every year, tennis fans watch the Wimbledon Championships, the French Open, the US Open or the Australian Open to see their favourite players. Tennis is also an Olympic sport.

How did the game of tennis begin?

In the 12th century, people in France played a game called "Paume". At first, they hit a ball with the palms of their hands. Later, they started wearing a leather glove to hit the ball.

In the 16th century, people used simple rackets to play Paume. They started to call the game "Tennis", because the players shouted the French word "Tenez!" ("Let's play") at the start of each game. Many kings in Europe played tennis. King Henry VIII of England loved the game. He built an indoor tennis court at his favourite palace.

The first tennis balls were wooden!

Wimbledon was first on TV in 1937.

In 1873, people started to play tennis outside. They called the outdoor game "lawn tennis". There were new rules and a different court. Lawn tennis is the same as modern tennis.

In 1877, 22 tennis players entered the first World Tennis Championship at Wimbledon in the UK. The first winner was Spencer Gore. At first, only men played tennis at Wimbledon, but in 1884, women started playing in the championships, too.

Venus and Serena Williams were the first sisters to win Olympic gold medals in tennis.

Shadow puppet theatre

Shadow puppet theatres first started in China thousands of years ago. But shadow puppet theatre is still popular today in many parts of the world. Shadow puppets tell people about important events and describe traditional stories. Nowadays, there are some new and modern stories, too.

The puppets are usually made from animal skins. These shadow puppets are camel skin and they come from Indonesia. Often, there is just one puppeteer who makes the puppets move. To move the puppets, there are wooden sticks on the puppets' backs.

The theatre is dark and a bright light shines on the puppets to make shadows on a screen behind them. The puppeteer does all the voices. And sometimes, there are other people singing or playing instruments.

Hand shadows

You can do shadow theatre at home, using your hands! You will need a white wall and a bright light.

To make a growling tiger:

- Make a 'C' shape with your left hand.
- Put your right hand on top of your left hand, with your fingers on the back of your hand.
- Lift up your right thumb a little for the tiger's ear.
- Don't forget to make the tiger's mouth move by moving the fingers and thumb on your left hand.

The Ant and the Grasshopper

It was a lovely summer day. The grasshopper was sitting in the sun, playing his violin. An ant walked by, grunting as he carried an enormous piece of corn on his back.

"That corn looks really heavy," said the grasshopper. "Come and play with me instead."

The ant was tired and hot. He pointed at a pile of corn.

"I can't. This will be my food during winter," he said. "There will be less food then, so I must prepare now." The grasshopper laughed.

"Why worry about winter?" he said. "It's summer now and there's plenty of food."

Soon, the weather became very cold and the ground was covered with thick snow and ice. The grasshopper tried to dig, but he couldn't find any food.

"Help me! I'm hungry," said the grasshopper to the ant. "Please, can I share your food?"

The ant had lots of food and was kind and generous.

"I will help you this time," said the ant, and he gave the grasshopper some corn.

"But next year, I will not help you. You mustn't be lazy and you must prepare for winter!"

American Football

American football is very different from European football. It is more like the game of rugby. But when and how did American football start?

In the 19th century, people played football in England. Like modern football there were teams, the players kicked the ball and scored goals.

Then one day, a player picked up the ball and ran to the goal. It was a new sport and they called it rugby. Football and rugby spread across to the USA and became popular there. Then the Americans invented American football.

Modern American football is most like rugby, but there are only eleven players in each team. There are 60 minutes of play, but the game can last four or five hours. This is because they stop the game when there is no play. The teams use an oval ball,

and they have to run with the ball to the other team's goal. When they get there, they can score a touchdown and get six points. American football players are usually very big and very strong because they have to stop the other team. The game is more dangerous than rugby, so the players wear helmets and special clothes.

Today, American football is the United States' most popular sport. The most important game is called the *Super Bowl*. They play this in January. Millions of families in America watch it on TV or go to the game. Some of the most popular teams are the *New York Giants* and the *Dallas Cowboys*. Every year, all the teams find new American Football players. The best players become very famous in America.

Name: Eli Manning
Birthday: January 3 1981
Birth place: New Orleans
Height: 193cm
Position: Quarterback
Team: New York Giants

Name: JJ Watt
Birthday: March 22 1989
Birth place: Wisconsin
Height: 196cm
Position: Defensive end
Team: Houston Texans

3 Answer the questions.

1 What is the name of the biggest American football game?

2 Who do Eli Manning and JJ Watt play for?

3 Who is taller: JJ Watt or Eli Manning?

4 Ask and answer.

1 Would you like to watch or play American football? Why?

2 What's your favourite sport? Why do you like it?

The fastest man in the world

Many people say that Usain Bolt is the world's fastest man ever. In 2008 he won three gold medals at the Beijing Olympic Games in the men's 100m, 200m, and 4×100m relay.

He also broke three world records. He was the first person to win these three events at the same Olympics. Then, at the London Olympics in 2012, he won three gold medals again in the same events! This is his story.

Usain Bolt was born in Jamaica on August 21, 1986. He lived in a small town called Trelawney, where his parents had a small food shop. When he was a child, Usain played cricket and football in the street with his brother, Sadeek, and sister, Sherine. Usain was very good at cricket, and wanted to play for the West Indies.

Usain loved all sports and was one of the best runners at his school, but his sports coach wanted him to be an athlete. So Usain started to run in competitions. He won many races and, when he was 15, he won a gold medal and two silver medals at the 2002 World Junior

Championships in Kingston, Jamaica. In 2004, Usain ran in the Olympic Games in Athens. He didn't win a medal because he had an injured leg. However, at the 2008 Olympic Games he became world famous.

Usain was always an ambitious boy and wanted to do well. His family was quite poor, but now he can help them and the people in his town. He also inspires young sportspeople all over the word.

So, how does he run so fast? Is it because he is so tall? Most athletes are around 182cm tall, but Usain Bolt is 196cm tall. He is taller and his legs are longer, so he takes fewer steps.

Fun Facts

Usain Bolt likes dancing and watching football. His favourite team is England's Manchester United. People call him *Lightning Bolt*.

3 Read again and write **T** (true) or **F** (false).

- 1 Usain Bolt's parents had a sports shop. _____
- 2 He won a gold medal at the Athens Olympics. _____
- 3 He won a gold medal three times at the London Olympics. _____
- 4 Usain has longer legs than most other athletes. _____

The Future What do you think the future will be like?

**Rob, 10** There won't be much land, so there will be big cities underwater, and we will travel in submarines. I think some houses will be underground, too, but I won't live in an underground house. I'll live in an underwater house with glass walls. I will see fish swimming around!

**Lara, 10** I agree with Rob. There won't be many parks or green spaces. There will be lots of cars and planes, so pollution will be very bad. We won't have a lot of fresh food, so people will eat lots of junk food. There will be food pills, too.

**Jim, 11** I disagree. I think the world will be a cleaner place in the future, because we won't use petrol or other fossil fuels. We will use energy from the sun to power our cars and houses. I think cars will be very fast and some cars will fly, too!

**Jasmine, 11** I think computers will be very small in the future. We will have computers in our clothes and we will use our voices to control them. We'll learn lots of interesting things. We will use virtual reality to study. We won't go to school, but we'll meet our teachers and friends in cool virtual places to learn about the world.

Family Activity Holiday

[home](#) [about us](#) [contact us](#)

Do you want a holiday that everyone can enjoy together? Are you an active family? Our three-day family activity holiday helps you get fit and have fun together. This holiday is suitable for all the family, including children from the age of five and above.

Our programme is packed with fun activities from morning until night. You will be in small groups with other families, and we make sure that the children in each group are of a similar age.

During the day, you can try rock climbing on our 15 metre climbing wall. Our expert instructors will show you how to wear harnesses and ropes to keep you safe at all times. You can try our high ropes and zip wire courses, and enjoy being up in the trees and flying through the air like a bird. A low ropes course is also available. We also spend a morning horse riding in the beautiful hills near our centre. Our ponies are very calm and well behaved, and you don't need any previous experience to take part. Our mountain bike ride is also very popular.

We offer water activities, too. We have a beautiful, clean lake where you can learn to sail, canoe and kayak, always with the help of our expert instructors.

In the evenings, there are games and sports activities for all the family. With so much to do, your family will never be bored!

The author Jonathon Swift wrote his book *Gulliver's Travels* in 1735. It is still very popular today, after more than 275 years. There are also famous films of the story.

Gulliver's Travels

A voyage to Lilliput

My name is Gulliver, and when I was a young man I went travelling. I joined a ship and sailed to the islands of the South Pacific. It was a brilliant voyage at first. We sailed across the Atlantic Ocean and the Indian Ocean. Suddenly there was a terrible storm and I fell into the water. Finally I swam to an island. I walked on the beach and looked around me. There were no people and no houses. I was very tired so I fell asleep on the sand.

When I woke up in the morning, I couldn't move. I was lying on my back and my arms and my legs were tied to the ground. I was very hot in the sun and I was frightened. Suddenly I saw a very small man. He was about 15 centimetres tall and he was walking on my leg. Then I saw lots of small men on my arms and my legs. I shouted and, in surprise, the men fell off my body. Then I spoke to them in English. They didn't understand my language, but they saw that I was friendly.

I pointed at my mouth to show I was hungry and they brought me some food. Their food was normal, but it was very, very small and it meant I had to eat a lot. I ate lots of tiny loaves of bread and lots of tiny pieces of cheese and a lot of meat. I finished my meal and then hundreds of men and thousands of horses carried me to their city. It was a very long journey.

When I arrived at the city, I looked around me. The houses were smaller than my feet and I was bigger than the trees. The king and the people were kind to me so I stayed on the island. I learned that I was in Lilliput and I learned their language. I played with their children and I gave them presents such as my watch and some coins. These things were enormous to them. Eventually, I left the city and travelled again.

Everest Expeditions

Mount Everest is the highest mountain in the world. It is named after George Everest, the first person to record its location and height.

The first people to climb to the top of Mount Everest were Sir Edmund Hillary and Tenzing Norgay.

Tenzing was a mountain climber from Nepal and Hillary was an explorer from New Zealand. They were part of a large expedition including 362 porters and 20 guides.

The expedition started in March 1953. It took the team many weeks to get close to the top of the mountain. Some of the climbers had to give up when their equipment didn't work and they couldn't get enough oxygen, but Hillary and Tenzing continued the expedition.

There was heavy snow and freezing winds, but by 28th May, Hillary and Tenzing were near the summit. They slept in a tent that night.

The next morning, Hillary's boots were frozen solid outside the tent! It took two hours to melt the ice and get the boots warm. Hillary and Tenzing climbed the last part of the mountain. They used ice axes to pull themselves up the icy rocks. On 29th May, they reached the summit. They stood on the highest point on Earth. Then Hillary took some photos and they buried some chocolates in the snow for future climbers. They only stayed at the top of Everest for about 15 minutes, because it was difficult to breathe. There isn't much oxygen at 8,848m!

Since then, many people have climbed Mount Everest. The oldest person to reach the summit was Yuichiro Miura, from Japan. He was 80 years old. The youngest person was Jordan Romero, from the USA. He was 13.

Reading

1 Look at the text and pictures below. Say three ways to stay healthy.

2 Listen and read.  99

How to stay healthy

We all want to be fit and healthy, so here are some tips to help.

Take lots of exercise

Watching TV or playing computer games won't make you fit, but playing sports will. You can join a club or play with your friends in a park. If you don't like team sports, you can walk to school, go swimming or try skating instead. Regular exercise makes you feel stronger and gives you more energy.

Eat a healthy diet

Sweets, chocolate and crisps are fun to eat sometimes, but it is not good to eat them every day. These foods contain too much sugar, fat or salt. Make sure you eat vegetables, such as cabbage, with every meal, and plenty of fruit, too. Fruit and vegetables help you stay healthy and grow strong.

Drink lots of water and milk

Water or juices are better for you than fizzy drinks because fizzy drinks contain lots of sugar. Eating a lot of sugar is bad for your teeth. One can of cola contains about nine teaspoons of sugar! Milk is good because it contains lots of calcium. You need calcium to help your 206 bones to grow and keep your teeth strong.

There is this much calcium in a serving of ...

- 1 a glass of milk
- 2 two sardines
- 3 cabbage
- 4 cheese
- 5 yogurt
- 6 beans

3 Underline these words in the text. Guess their meanings and then check them in the Workbook 4 Dictionary (page 132).

4 Read again and complete the sentences.

- 1 Walking and skating are types of exercise.
- 2 You should eat _____ with your meal.
- 3 There is a lot of _____ in fizzy drinks.
- 4 _____ has got a lot of calcium.
- 5 Vegetables help you to stay _____.

My life in the Arctic

Dear Laura,

I am your new penfriend and I want to tell you about my life. I live with my parents and grandparents. I've got two younger brothers, Koda and Atka, who are two and four years old. I live in a village near the city of Barrow in Alaska. It is quite famous because it is the most northern city on the North American continent. We are in the Arctic, so I suppose my life here is very different from yours in England. Here, in winter, there is normally very thick snow. It's very cold. The temperature is about minus 30 degrees! During winter, the sky is dark all the time, even in the day, but the white snow on the ground gives us light to see. Sometimes we can see beautiful colours in the sky, too. This is called the Northern lights.

Most of my friends walk to school using special snow shoes or skis. I live further from the school, so I go by snowmobile, which is really fun. My mom drives it and I sit on the back. How do you go to school? Do you have snowmobiles in England? I think you have more rain than snow there, right? It hardly ever rains here.

There are 200 children at my school, mostly Eskimos like me. We also have other visitors to our school: reindeers and polar bears try to come into school. Polar bears are beautiful, but really dangerous.

What wild animals do you have in England?

At the weekends, there are usually dog sled races in my village. We have five dogs and my father drives them. It's really exciting. We also tell stories, sing songs and dance.

In the summer, everything changes. Most of the snow goes and the sky is always light and sunny. It's never dark at all. Eskimo children don't go to school during the summer here. We travel with our parents to go hunting and fishing, and we sleep in tents. What do you do in the summer?

Please write soon and tell me about life in England. I imagine it is very different from life here!

Best wishes, Kirima

3 Read again and circle the correct word.

- 1 Kirima goes to school by **skis / snowmobile / bus**.
- 2 In the Arctic it is dark all the time in **winter / summer**.
- 3 Kirima's **mother / father** drives the dog sled.
- 4 In the summer, Eskimo children **go / don't go** to school.

4 Ask and answer.

- 1 Would you like to go to the Arctic? Why?
- 2 How is your life different from Kirima's life?

Facts about the Arctic

- Eskimo people live in Alaska (USA), Canada, Greenland and Russia.
- The Arctic is bigger than the continent of North America.
- People have lived in the Arctic for thousands of years.
- There are four million people living in the Arctic.

1 Describe the picture. What do you know about deserts?

2 Listen and read.  104

Life in the Desert

What is a desert?

There are different kinds of deserts. There are hot deserts and there are cold deserts. The Sahara Desert is the biggest hot desert in the world. The Gobi Desert is always very cold. Some deserts are sandy. Some deserts are rocky. Other deserts have mountains. Antarctica is the coldest place in the world, but it is a desert and it is covered in snow and ice.

What is the weather like in the desert?

A desert is a very dry place. It has very little rain. It snows in Antarctica, but it does not often rain. In hot deserts, it is very hot during the day and then very cold at night. When it rains, it rains suddenly. But there is very little water in the desert. Sometimes you can find water in rocks underground. These places are called oases.

It can be very windy in the desert, too. There can be sandstorms or snowstorms. In sandy deserts, the wind blows the sand and makes big shapes like mountains. These shapes are called sand dunes.

What plants and animals live in hot deserts?

Plants and animals need water to survive. The desert is very dry but amazingly, there are many plants in the desert. There are also many animals, insects and birds. How do they survive?

Some plants, like cacti, keep rain water in their leaves for a long time. Other plants have long roots. The roots take water from deep under the ground.

Some animals in the desert never drink. They get water from seeds and plants. Many animals are nocturnal. This means they sleep during the hot day and come out at night. Some animals live underground for most of the time because it is colder.

People often travel in the desert on camels. These animals can drink a lot of water very quickly and then they do not need to drink for a very long time. They are perfect in the desert!

3 Read again and write *T* (true) or *F* (false).

1 It is always hot in the desert. _____

3 Animals and plants live in the desert. _____

2 It never rains in the desert. _____

4 Some animals don't need water. _____

Boy helps earthquake victims

Charlie Simpson, from England, watched the news on TV about a strong earthquake in Haiti and felt very sad. Charlie was only seven years old, but he wanted to help the people in Haiti. He decided to do a sponsored bike ride around his local park to raise money for UNICEF, a large charity which helps children around the world. Charlie started a webpage to ask people to sponsor his bike ride for UNICEF. Soon lots of people heard about Charlie's idea, including the British Prime Minister! Lots of people sponsored Charlie, and his bike ride raised £136,000 to help the victims of the Haiti earthquake.

Boy starts 'clean water' charity

Ryan Hreljac, from Canada, was six years old when his teacher, Mrs Prest, told his class about a big problem in Africa. Many people there don't have clean water. Because of this, they often get ill. Ryan wanted to help, so he started doing chores for money. It took several months, but Ryan finally raised \$2,000 to pay for a well near a school in Uganda. Ryan was happy, but he wanted to do more. He started a charity called Ryan's Well Foundation. Since 1999, Ryan's foundation has raised millions of dollars to provide clean water to people in Africa.

And I just can't wait.

My cousin Bill's a toddler
Who has just turned two.
He likes to scream and shout,
Just like normal toddlers do.

But he's really fun and cute
And he's learning to be good,
And I'm going to help him
Do all the things he should.

Kate will sleep in my room
On some cushions on the floor,
Aunt and Uncle in the lounge,
On a camp bed by the door.

But our house is quite small,
So it will be quite a squeeze.
There'll be eight around the table:
Sixteen elbows, arms and knees!

There'll be queues for the bathroom
And queues in the hall.
There'll be coats, shoes and bags
Piled up against the walls.

The house will be so noisy
As we all like to speak.
There'll be laughter and singing
For the whole of next week.

And when they all go home,
I know they'll stay in touch.
But the house will be so quiet
And I'll miss them all so much!

Three Wishes

Once upon a time, there was a poor fisherman. The fisherman's wife was usually angry because he didn't catch many fish.

One day, the man was fishing when suddenly, a little fish jumped into his net.

"My wife will be happy now," said the man, "we will eat this fish for dinner."

But then the fish spoke. "Please throw me back in the sea," it said, "and I will give you three wishes."

The fisherman was very surprised. "Great!" he thought. "I can make my wife very happy with three wishes."

Later, he told his wife about the fish. She wasn't happy.

"Fish don't speak, you silly man!" she said. "And now there isn't any fish for dinner."

The fisherman was hungry, and he looked at his dinner of bread and water.

"I wish we had sausages instead of bread and water," he said.

Suddenly, three delicious sausages appeared on his plate. He was very happy and started to eat.

But his wife shouted angrily, "Why didn't you wish for something better, like money or gold? You silly man! I wish those sausages were on the end of your nose!"

The man looked down at his nose and screamed. All the sausages were on the end of his nose.

The wife pulled and pulled, but she couldn't get the sausages off the man's nose. They had to use their last wish.

"I wish," said the fisherman sadly, "for the sausages to go away." Suddenly, the sausages disappeared.

Now they had no sausages and no wishes. And the fisherman never saw the fish again.

The Gold Rush

California is one of the most famous states in the USA. It is the home of Hollywood and cities like Los Angeles and San Francisco. But, until 1848, San Francisco was only a tiny village with a few hundred people. Then something happened – people found gold there! Between 1848 and 1855, over 300,000 people travelled to California to look for gold. This time was called the Gold Rush.

The Gold Rush started when James Marshall, a man who worked in a mill in California, saw little pieces of shiny yellow metal in the river. He was very excited to find it was gold. The mill owner tried to keep it a secret, but soon people found out about the gold and started to arrive in California.

They came from all over the world. Some were Americans, but many came from places like China, Mexico, Europe and Australia. The people looking for gold were called *prospectors*. Many travelled by ship, and some travelled overland on horses and wagons.

At first, many people found gold and became rich. They found it by 'panning for gold' with a big pan. They put water and small stones into the pan, then shook it. As gold is heavier, it went to the bottom of the pan, where the prospector could find it easily.

Looking for gold was very hard work. The prospectors lived in tents and cooked on fires. Life was very hard and many became ill.

After a few years, most of the gold from the rivers was gone. Then most of the prospectors found very little gold and were very poor. When the gold ran out, everyone left the camps and tried somewhere else. In fact, there are still some empty towns in California from this time. There are lots of empty buildings, but nobody lives there now. One example is Bodie in California. Tourists can visit it today to find out more about life during the Gold Rush.

But the city of San Francisco grew and is now one of the biggest cities in the USA. It is thanks to the Gold Rush that the city became so successful.

Gold Rush facts

- People used their old ships to build houses. Today, you can still see old ships below buildings in San Francisco.
- Children play 'panning for gold' games at parties.

3 Read again and write T (true) or F (false).

1 San Francisco is a village now. _____

3 Some prospectors came by sea. _____

2 The Gold Rush happened in China. _____

4 No prospectors became rich. _____

1 Describe the pictures. What is the story about?**2** Listen and read.  128

Long ago, in Ancient Greece, there was a king named Midas. He lived in an enormous palace with his wife and his daughter. King Midas was very, very rich. He had more gold than any other king in the world. His palace was full of gold statues, gold jewellery and gold coins, but Midas was greedy and he always wanted more.

One day, the king was walking in the garden of his palace with his daughter. She was picking yellow flowers for her room. "Those yellow flowers are very beautiful," King Midas said, "but gold flowers are more beautiful."

The king's daughter ran back into the palace with her flowers and the king walked alone. Then Midas made a wish. He wished that everything he touched became gold. Soon he touched a flower. It became gold. He touched a tree and it became gold.

He touched a plant and it too was gold. "My wish has come true!" he shouted.

The king touched many things in his garden and in his palace. He touched pictures and vases and plates and they all became gold. Soon Midas was hungry and thirsty.

But, when he put some bread in his mouth, it turned to gold. And when he put some water to his lips, it also turned to gold.

The king sat in his garden. "I have all the gold in the world," he thought, "but I cannot eat and I cannot drink. What shall I do?" At last, the king's daughter saw her father in the garden. She ran to him because he looked so sad. She touched his hand and suddenly she became gold, too. King Midas made another wish. He wished that he could have his daughter back and he wished to not have any more gold. Suddenly, all the gold was gone and his daughter was playing happily in the garden. King Midas had learnt his lesson and he never asked for more gold again.

3 Read again and write yes or no.

- 1 Does King Midas have a lot of gold? _____
- 2 Does King Midas want more gold? _____
- 3 Can King Midas eat the bread? _____
- 4 Does this story have a moral? _____

- 2 What is your favourite story from your country? _____

Extensive reading: Science

1 Look at the pictures. What job did Marie Curie do?

2 Listen and read. 129

Marie Curie

Can you imagine a world without X-rays? X-rays let doctors see your bones, so they know if you have a broken arm or leg. X-rays exist thanks to the work of a very important scientist called Marie Curie. She discovered *radium*, an element used in X-rays and treatments for cancer. Her work was so important that Marie Curie was the first woman to win a Nobel Prize and was also the first person ever to win two Nobel Prizes.

Marie was born in Warsaw, Poland, in 1867. She was the youngest of five children.

Her parents were both teachers. Science and maths were her favourite subjects at school. As her father was a maths teacher, he could help her at home. When Marie left school, she wanted to be a scientist, but the family did not have enough money for her to study. She worked as a teacher to earn money, and read science books in her free time. She had to wait six years to have enough money to study.

Finally, in 1891, Marie went to study Physics at a famous university in France, called the Sorbonne. In France, she met her husband, Pierre Curie, who was a famous scientist. They worked on complicated experiments together, and during these experiments the new elements were found.

A talented family

As well as the achievements of Marie and her husband, Pierre, their daughters, Irene and Eve, were also very successful.

Irene, the older daughter, also became a famous scientist and won a Nobel Prize for Chemistry. The younger daughter, Eve, wrote a book about her mother's life.

World War I

During World War I, there were not enough X-ray machines for the hospitals. Marie Curie made X-ray machines that could move from hospital to hospital in a truck. These trucks were called *Little Curies* and helped over one million soldiers during the war.

Safety

Although radium is a very helpful element, no one knew at the time that it can also be very dangerous. Nowadays, people are much more careful. Marie Curie did not wear protective clothing and often carried radioactive materials in her pockets. Sadly, Marie died in 1934 due to too much contact with the element. She will always be remembered for her excellent contribution to science and to healthcare.

Nobel Prizes are given each year to the best scientists in the world. You have to discover something very important to receive this award.

3 Read again and circle the correct word.

- 1 Marie Curie was born in **France / Poland**.
- 2 Marie and Pierre had two **daughters / sons**.
- 3 **Eve / Irene** wrote a book about Marie Curie's life.
- 4 Marie Curie's parents were **scientists / teachers**.

4 Ask and answer.

- 1 Do you like science? Why?
- 2 What do you want to do when you grow up?

1 Look at the pictures. What do you know about robots?

2 Listen and read. 130

Robots

Most people have seen films or TV programmes with robots in them, but can you imagine a world with real robots? Would you like a robot to cook your dinner, clean your house or play football with you?

There is a robot that can do these things. Its name is ASIMO and it is from Japan. ASIMO is the most advanced robot in the world. It is the first robot to walk and run like a human, and it can even climb stairs. The robot can run at 6km per hour, about the same as a fast child.

ASIMO can also recognise people's faces, their names, and can understand their commands. This robot can respond to what you say and it can learn to speak any language. ASIMO has arms and hands, so it can open doors, carry things and turn lights on and off. ASIMO can help old people or people with disabilities by doing jobs around the house. ASIMO can also play sports and other games, so it is very popular with children. In fact, ASIMO is the same height as a ten year-old child, at 1.3 metres tall. The robot also looks very friendly and playful.

The future of robots

In the future, robots will also do dangerous jobs like putting out fires, rescuing people after earthquakes or going to dangerous places. They may also teach in schools and help with operations in hospitals. Special robot arms in factories already make cars, and in the future more things will be made by robots.

Although some robots look human, we have to remember that they are machines with computers inside. Robots can do many things, but they cannot think or feel.

Whatever happens in the future, you will probably meet a robot like ASIMO one day.

A job for ASIMO

ASIMO works as the receptionist at the Honda offices in Japan. The robot meets visitors, talks to them and takes them to the correct rooms.

3 Read again and write T (true) or F (false).

1 Asimo can run like a human. _____

2 Robots will put out fires. _____

3 Robots can think and feel. _____

4 Robots can't make cars. _____

4 Ask and answer.

1 Would you like to have an ASIMO robot? Why?

2 What films with robots have you seen? What can the robots do?

Shopping

1 Listen and read. Write the child's name next to each picture.

Lots of British people love shopping. Some people even say it is their favourite activity! We asked some children in London about their shopping experiences.

Liam
10 years old

I love toys, so Hamleys toy shop is my favourite place in London. There are five floors at the shop. That's a lot of toys! Five million people visit Hamleys every year. I am looking for a present for my brother. He loves robots and there are quite a lot here to choose from.

Bryony
11 years old

I usually find shopping boring, but I really like shopping at Brick Lane Market on Sundays with my aunt. There are hardly any big shops here; just lots of stalls selling unusual things. I'm looking for a pretty mirror for my bedroom. There are usually a few street entertainers, too, so we always have a lot of fun.

Caitlin
9 years old

Today, I'm shopping at Westfield Shopping Centre with my mum. It's a huge shopping mall with lots of different shops and some department stores, all under one roof. I'm looking for new trainers and I've seen a few that I really like!

Danny
13 years old

Today, I'm in Tottenham Court Road with my uncle. This street has quite a lot of shops that sell electrical things like computers and televisions. We're looking for a new radio for my uncle. My sister doesn't like it here because there aren't any clothes shops.

Let's talk about shopping!

Hello everyone!

It's nine o'clock in the morning. I've been at the National Marine Aquarium for the whole night! The National Marine Aquarium is in Plymouth and it's the biggest aquarium in the UK. It's been open since 1998, and it works hard to protect ocean wildlife. You can see lots of fish and other sea creatures at the aquarium. I've loved the ocean since I was little, and last night my dad and I spent the night in the aquarium to learn more about the amazing species there. It's called the Sleeping With Sharks experience. We saw sharks, octopuses and clown fish, and we learnt lots of interesting things about them. I loved Snorkel, the Loggerhead Turtle. She's lived at the aquarium for about 25 years. We made models or painted pictures of our favourite sea creatures in the arts and crafts centre. I made a model of Snorkel. Then we watched a film about a turtle on a big 4D screen. The screen blew air at us and sprayed water in our faces! It was really cool! We got into our sleeping bags in front of a huge fish tank. We had a snack and then we fell asleep while the fish swam around us. I've had a brilliant time!

Finn, age 11

Hi there!

A circular portrait of a young girl with long brown hair, smiling. Her left hand is resting against her cheek, with her fingers near her mouth.

It's midday and I've been at Whipsnade Zoo since seven o'clock this morning! My family is spending the day here and we're having an amazing time! Whipsnade Zoo is the largest zoo in the UK. It has been open since 1931 and it's been my favourite place to visit since I was little. I've always loved wild animals, and there are more than 2,500 wild animals at Whipsnade Zoo! This morning, we travelled around the zoo on a steam train for an hour. Today, we've seen the elephants, rhinos and camels. The biggest elephant is called Emmet. He's lived at Whipsnade Zoo since 1997. We've watched the keepers feeding the bears and the lemurs, and we've seen all kinds of different birds. We've learnt lots of new things since we arrived. Did you know that parrots like doing puzzles and that zebras have stripy skin? After lunch, we're going to watch a sea lion show. Then we're going to visit the Discovery Centre because there are lots of unusual species there. Whipsnade Zoo has worked for years to protect rare and endangered species. I want to learn more about how we can help to protect wild animals. I'll write more later!

Jemma, age 10

Let's talk about wildlife

Present perfect with **for** and **since**

Australia

1 Listen and read. Circle six sentences that contain the word *if*.

133

1

Hi. My name's Dan. I live in Oxford, in England. I've got an aunt, an uncle and two cousins who live in Australia. Sadly, I've never met them. This is because Australia is a long way from England. Dad says that if we can, we'll go to visit them next year! I really hope we can.

2

My relatives live in Sydney, the biggest city in Australia. If we go to Sydney, I'll visit the Sydney Opera House. It's really famous and it's at the harbour. If we go to Australia, we'll visit other big cities, too, like Melbourne and Perth. I also want to see Canberra, the capital, which is quite small.

3

In the middle of Australia is the Outback. It's very hot and dry there. The Aboriginal people arrived in Australia about 50,000 years ago. Most live in towns now, but some Aboriginal people still live a traditional life in the Outback. They hunt with boomerangs and spears. If we travel to the Outback, we'll see kangaroos and possums, and maybe we'll meet some Aboriginal people, too!

4

If we go in January, we'll get to see Australia Day. This is on 26th January every year, and there are parades and fireworks. If we are in Sydney, we'll see a ferry race across the harbour. It sounds very exciting.

Let's talk about Australia!

Factfile

There are more kangaroos than people in Australia.

First conditional

If we go to Sydney, I'll visit the Opera House.
If we travel to the Outback, we'll see kangaroos.

2 Read again. Write T (true) or F (false).

Correct the false sentences.

- 1 Dan has met his Australian relatives. F

Dan hasn't met his Australian relatives.

- 2 There is a ferry race across Sydney harbour every April. _____

- 3 Sydney is the capital of Australia. _____

- 4 If they go in January, they'll see Australia Day. _____

- 5 There are more people than kangaroos. _____

3 Talk about Dan's trip to Australia.

can / go / Australia next year
goes / Sydney / visit Opera House
goes / Australia / visit other cities
travels / Outback / see kangaroos
goes / January / see Australia Day

If he can, he'll go to Australia next year.

If he goes to Sydney, he'll visit the Opera House.

4 Write about a city in your country. Draw.
