Lesson Five

Reading

1 Look at the story. Choose the best title. Write the title at the top.

- a) A lovely day on the river
- b) An adventure on the river
- c) A storm at sea

It was a summer morning. The river was calm. The clouds in the sky were light, like smoke.

"I want to go out in the boat," said Jack.

"OK, let's go!" said Harry.

After half an hour on the river, Jack stopped rowing. The boat floated quietly on the water. The sun was warm, and Jack and Harry soon fell asleep with the sun on their faces. They slept for a long time.

When they woke up, the sky was dark. There were storm clouds above them. A flash of lightning lit the sky.

"A storm is coming!" Harry said, nervously. And, very soon, the wind started to get stronger and stronger. Waves hit the boat with a splash and heavy rain started to fall. Jack was rowing when he dropped the oars by accident and they floated away. Without the oars, the boys couldn't row. They didn't know what to do.

Then a big wave hit the side of the boat. The boat turned over, and Jack and Harry were thrown into the water.

"Grab the boat!" Jack shouted. They held on tightly to the boat as the water carried them along.

At last, the boat hit some rocks near the river bank. The boys felt the ground under their feet and slowly they got to the bank. When they looked back, their boat was gone.

"Where are we?" Jack asked. "Will someone rescue us?"

Then they saw some smoke from behind the trees. "Maybe it's a house!" Harry said. They walked along the path between the trees – and stared in surprise.

2 Read again and number the pictures in the correct order.

1 Look at the article. What is Henry doing? Tick (✓) the correct answer.

- a) He's studying at university.
- c) He's working for an environmental group.

- b) He's working as a diving instructor.
- d) He's on holiday.

Henry Watson is an 18-year-old volunteer with an environmental group called EcoTask. EcoTask is an organization that helps to protect the environment.

People with different skills volunteer to work for them and EcoTask has lots of interesting ways for volunteers to help the environment. Henry Watson is a talented diver and he is using his skills to help protect wildlife under the sea.

Henry is spending three months at an EcoTask centre on the Red Sea. The centre provides all the diving equipment people need and also gives training to teach people what to do.

Henry works in a team with 15 other volunteers. He dives into the sea and records what he sees. He writes down the different types of fish and other sea animals he sees, and he reports any problems, for example, plants that are dying. He also tests the water for pollution to check if the water might damage the health

of the wildlife that live in the water. This is very important.

"I wanted to do something different before I go to university. I've always loved diving and I want to help the environment, so this project is perfect for me," Henry says. "The underwater life in the Red Sea is amazing and it's very important to protect it. Our research helps to do this."

He would like to stay in Egypt when the three months finish. "The best volunteer in each group can stay and work here for another two months," he says. "I hope it's me! I'd really like to stay here longer!"

2 Read again and write True or False.

- 1 Henry is working as a volunteer for EcoTask.
- 2 Henry is very good at diving.

Choose the chillies that you want to buy from the many shops at the Hatch festival!

Try some of the tasty snacks for sale!

Pick up free recipes and make your own delicious chilli dishes at home!

Every year in late August or early September, there is a special festival in a little town called Hatch, in New Mexico, USA. The festival lasts for one weekend and it celebrates chilli peppers, the most famous food from this area. Farmers grow chillies in the local area and, in late August or early September, the chillies are ready to be picked and eaten! Then everyone gets together and celebrates the chilli!

You'll know when you get close to Hatch because you'll smell the chillies cooking over fires. People eat chillies with everything! They eat them with meat, with vegetables and even with chocolate! Chilli chocolate is

delicious! In town, there are chillies everywhere, in different colours, shapes and sizes. People decorate the buildings with chillies. They hang big bunches outside their houses. Some people even cover their walls and roofs with chillies!

Visitors come to the festival from all over the USA, so it's best to arrive early. There are music groups and traditional dances, and you can also watch cooking demonstrations which show you how to make dishes with chillies. On both days, there are competitions. For example, there is a prize every year for the person who can eat the most chillies, and another prize for tying chillies into the biggest bunch. Come to the festival! It's great fun!

Lesson Five

Reading

1 Look at the text. Choose the best title. Write the title at the top.

- a) Across the desert by camel b) A drive across the desert c) The camel doctors

The desert is one of the most difficult environments in the world to travel through. The sand dunes are difficult to climb and, in the daytime, the sun is bright and the temperatures are very high. You can travel for many days and weeks without finding any water or food.

Long before cars, people used camels to cross the desert. Camels are ideal desert animals. They can carry heavy loads of up to 450 kilograms and they can walk for days without water. When they find water, they can drink up to 100 litres of water in ten minutes! Camels can eat almost any plant they find in the desert. Their milk is very good to drink and it is full of vitamins, so people travelling in the desert can drink the camel's milk and stay healthy. Camels were used to bring packages of food and other supplies to faraway villages.

Sometimes, camels were used by people who wanted to sell goods in different places. In more recent times, they carried equipment for building railways.

Today, we have 4 x 4 vehicles which can travel over the sand, but cars sometimes break down in the hot temperatures. This can be very dangerous as you can be miles from a village with no transport! Camels can travel long distances to places which have no roads or railways to connect them to other towns. In Mali, in Africa, camels carry blocks of salt for 800 kilometres over high sand dunes to Timbuktu, where they are sold. In other places, camels take important medicines to desert villages. Life in the desert would be much more difficult without camels!

2 Read again and write *True* or *False*.

- 1 It isn't easy to travel across the desert.
- 2 Camels were a form of transport before there were any cars.
- 3 It's easy to find food and water in the desert.

The first hot-air balloon was invented by two French brothers, Joseph and Etienne Montgolfier. They got the idea when they found that hot air from a fire made a paper bag rise into the air.

In September 1783, the brothers made a big balloon from cloth and paper. They made a fire under it. They thought it might be dangerous to go up in it themselves, so the first passengers were a duck, a sheep and a chicken!

In November that year, two friends of the Montgolfier brothers went up in a similar balloon. The balloon rose to 150 metres and floated for nine kilometres over the city of Paris – and it came down safely.

Boomerangs are well known in Australia, where they have been made by the local people for the past 10,000 years. However, boomerangs were ¹ invented much earlier and were also used in other parts of the world. A 30,000-year-old boomerang was ² discovered in a cave in Poland and, in Egypt, King Tutankhamen owned some of these interesting ³ objects.

We don't know where the ⁴ idea for the boomerang came from but, at first it, was ⁵ used for hunting animals, not for sport. Then people saw that when they threw a small boomerang in a special way, it flew through the air and came back to them. After more ⁶ experiments, the 'returning' boomerang was made. Now it is mainly used for sport. Although boomerangs are often made by ⁷ machines in factories, the best ones are made by hand.

Reading

1 Look at the pictures and tick (✓) two things a pencil has inside it. Read and check.

- a) graphite b) ink c) clay d) stone

The history of the pencil

A pencil is usually made of wood, with pencil lead inside. Pencil lead is a black material. It is made with graphite which is mixed with clay. This mixture is pressed into thin rods to form the centre of the pencil. The thin rod is the part of the pencil that leaves marks on the paper when we write. The wooden part outside this is the part that we hold.

16th century

People first discovered the use of graphite for writing in the 1700s. Pencils from this time were just pieces of graphite wrapped in sheepskin or string.

18th century

The design of the pencil was changed. A hollow space was made in a piece of wood, a rod of

lead was put in the space, and then another piece of wood was glued on top. After that, the pencil was cut to a sharp point at one end. So, pencils don't need to have a nib in them like pens do.

Today

Wooden pencils are made by machines in factories. Pencils are also made of plastic or metal, and they sometimes have cartridges filled with lead. There are pencils with different colours! There are even pencils that can write underwater!

Pencils are used all around the world. More than 14 billion pencils are made in the world every year. That's enough to go all the way around the earth 62 times!

The history of mobile phones

1 The first mobile phone call

On 3rd April 1973, Martin Cooper from the Motorola company talked on his mobile phone as he walked through the streets of New York. People watched with excitement and amazement. At that time, even normal phones were attached by wires and cords, and people had never seen anything like it before! It was the world's first mobile phone call. The phone weighed 850 grams! It was very heavy! Now, mobile phones weigh about 130 grams!

2

In the 1970s, mobile phone technology was still experimental. Mobiles weren't available to the public until 1983, when the DynaTAC 8000X was created. It was huge – 32 cm long and 9 cm wide! It took ten hours to charge the battery and you could only talk for 30 minutes. It was also expensive. The phone cost \$3,995! Only very rich people could buy one!

3

Martin Cooper had a dream of people taking their phones with them and being able to communicate wherever they were. However, in the early days, nobody knew if mobile phones would be popular. One company said they expected a world market of 900,000 by the end of the year 2000. They were wrong! By that time, mobiles were cheap enough for ordinary people to buy. They were also much smaller and looked much better than the DynaTAC! Millions of people were using them.

4

Mobile phones have changed a lot since the 1980s. We can use them to take photos, watch videos, surf the Internet and do many other things. Today, there are billions of mobile phones in the world. Life would be very different without mobile phones. They have changed the world!

2 Read again and write True or False.

Fun facts

- A text message is also called an SMS. This is short for 'Short Message Service'!
- Texts in English can be 160 characters long.
Characters means the letters, spaces and punctuation.
In other languages, there are usually fewer characters because each letter takes up more space.

Egypt's Lost Treasures

Herakleion was once a very important harbour city. It was the main entrance into Egypt from the sea before the city of Alexandria was built in 331 BC. But, at some point in the 8th century, Herakleion disappeared. We don't know exactly what happened. Scientists think that an earthquake caused the land to drop to the bottom of the sea. The city went with it and sank into the sea, where it stayed for more than 1,000 years.

Until the year 2000, people only knew about Herakleion from old books and stories. Then the French archaeologist Franck Goddio began to search in the Bay of Abu Qir. After a two-year search, Goddio's team of divers found the ruins of an underwater city. They found it six kilometres from the land and about eight metres under the sea. Clues in the writing on a stone from 380 BC showed that it came from a city called Herakleion.

The city was not changed much by the time it spent underwater. Divers found the harbour of the city and the walls of many buildings, including the biggest temple in Herakleion. They brought up hundreds of valuable objects which are over

2,000 years old, including sculptures, pots, coins and jewellery. They also discovered more than 20 shipwrecks, some of them from the 5th century BC.

Exploration is continuing, and archaeologists are sure that there are many more exciting discoveries to be made in this ancient underwater city and that the lost city contains many more secrets about the past. One historian said, "We have learnt so much in just one year." Historians hope to learn much more about how people lived in this ancient and almost forgotten city.

Reading

1 Look at the text. How many statues are on the island? Tick (✓) the correct answer.

- a) 3,500 b) 150 c) 800

In this interview, Amy Green talks about Easter Island.

Where is Easter Island?

Easter Island is in the South Pacific Ocean, 3,500 kilometres from Chile. People live on the island today, but it is difficult to live there as it is so far away from anywhere else. Easter Island is made from three volcanoes, but these don't erupt any more. The last time the volcanoes erupted was over 100,000 years ago.

Why is the island famous?

The island is famous for its mysterious stone figures. These are known as 'Maoi'. These statues are between three and twelve metres tall, and there is a platform underneath. Today, there are more than 800 statues on the island but, in the past, there were more. Some have been destroyed and others are now under the soil.

Why were the statues made?

No one really knows as there is no written information about them. However, many historians think that they are figures of important people or leaders from the island. Most of the statues are on the coast of the island and stand with their backs to the sea. The statues were made over a period of 1,000 years. Historians think the oldest statues were made in about 1000 AD.

How were the statues made?

They were made in the quarry from soft volcanic stone. Historians think that people then moved them on wooden rails. However, 150–180 people were needed to move each statue and some statues were moved more than 22 kilometres! A third of the statues were not moved from the quarry and are still there today.

Are there any other mysterious things on the island?

Yes. There are stones with ancient carvings, sketches and writing on them. However, there isn't anyone who can read the writing and so we can only guess at the meaning.

2 Read again and circle.

- 1 Easter Island is in the South Pacific / Atlantic Ocean.

Some ⁴(experts in history) _____ think that the island people ⁵(removed) _____ the trees so that they could move the ⁶(statues) _____ around the island. 1 Look at the text. What is the book about? Tick (✓) the correct answer.

- a) an accident in the mountains b) surviving after a shipwreck c) a holiday adventure

Island Adventure

Island Adventure is a book about a group of survivors on a desert island!

The main character in the story is a 14-year-old boy called Robert Wilson. At the beginning of the story, he lives in New Zealand with his

family. But when his parents die in a mountain climbing accident, Robert is suddenly alone. He decides to leave New Zealand and go to the US, where his aunt lives. She is the only family he has left.

Robert finds a ship that is sailing to the US, but he doesn't have any money. So, he has to work with the crew on the ship that is sailing to the US in return for his ticket. It is a long and difficult voyage. There are storms and rough seas. The wind pushes the ship in a different direction and the ship gets lost. Finally, it is shipwrecked near an island in the middle of the ocean. When the ship sinks, Robert is one of only six survivors who manage to swim to the island.

The year is 1870. So, there aren't any aeroplanes flying over or boats passing by, and there is no one who can find them and rescue them. The six people have to start a new life on the island. They collect wood to make fires. They have no food supplies, but they learn to hunt seals for food and clothing. They cut down trees to build wooden huts for shelter against the wind and rain. But winter is coming, and it is getting colder and colder. The survivors don't know if they can survive the cold weather. But they will do everything they can and fight to survive!

If you like exciting stories, you'll love this book!

2 Read and circle the incorrect words. Write the correct words.

- 1 The story is about people who survive on an adventure.
- 2 Robert goes on the ship to live with his parents in the US.
- 3 He works with the ship's passengers during the voyage.
- 4 The weather is dangerous for sailing because there are floods.
- 5 The captain pushes the ship in a different direction.
- 6 Robert survives with six other people.
- 7 They learn to hunt dolphins for food and clothing.
- 8 They find wooden huts on the island.

In this picture from *Island Adventure*, the ¹ storm has gone, but the weather is very cold. The six ² survivors from the shipwreck are building a ³ shelter on the island. They have ⁴ cut down some of the trees and they have used the wood to build the four ⁵ walls of a hut. Robert is helping the men to put branches on top. It is difficult to keep the rain out. The ⁶ sails from the ship were the perfect material, but there wasn't time to take them before the ship sank. The younger children are making a ⁷ fence around the hut with tall sticks. They are all very hungry, because they haven't got any ⁸ supplies of food.

- a) What are the official languages?
- b) How have so many languages survived?
- c) How many languages are spoken in Papua New Guinea?
- d) Why do people speak English there?
- e) Where did the languages come from?

The country of languages!

¹ How many languages are spoken in Papua New Guinea?

Papua New Guinea has a population of just six million people, but it has more languages than any other country in the world. More than 800 languages are spoken there. That's over 13% of all the languages in the world!

²

The three official languages are Hiri Motu, Tok Pisin and English. For most people, these are not their mother tongue, but they can be used to communicate with each other when they talk to someone from a different group.

³

English is important as an international language. About 50,000 people speak English as their first language. English is used in schools and businesses. However, many people speak lots of languages.

⁴

The first inhabitants of Papua New Guinea were tribes that arrived from different parts of Asia more than 50,000 years ago. They brought lots of languages with them. Over time, the languages they spoke developed into the ones that are spoken in Papua New Guinea today.

⁵

All these languages are still alive because many people live in very isolated places. When different groups first arrived, they lived in different areas because there were high mountains that were difficult to climb and there was rough land that was difficult to travel across. So, tribes didn't mix with other tribes, but kept their own culture, traditions and languages separate. Today, only 18% of people live in cities and there still aren't many roads connecting the villages. So, people stay in their own groups and speak their traditional languages. That's why Papua New Guinea's languages have survived.

2 Read again and write True or False.

- 1 Six million people live in Papua New Guinea.

There was once a boy called Jack
Who liked to watch the stars.
He dreamed about a spaceship
Heading off to Mars,
To Jupiter, Venus and Neptune
And landing on the moon.

He watched the constellations
In his dad's observatory,
And imagined all the wonders
In space that he would see.
The Milky Way and Saturn's rings –
One day, he'd visit all these things!

Jack dreamed some lovely dreams
As he lay all snug in bed.
The moon glowed through the window,
Its beams shone round his head.
A blazing comet travelled by
And stars like diamonds filled the sky.

At school, all Jack's teachers
Would shake their heads and say,
"That boy lives in a dream world,
Imagining the day
When he'll launch his spaceship into the blue –
That's when his dreams will all come true!"

bumpy spins diamonds glow head off surface precious snug

At school, we watched a film about the first time people walked on the moon. We watched the spaceship¹ head off into space. When the astronauts landed, we saw that the² surface of the moon is really³ bumpy, with lots of holes and rocks.

I love lying in my bed at night,⁴ quiet and warm, looking through the window. The lights of the village⁵ outside and the stars shine like⁶ diamonds⁷ in the sky. The stars seem to move across the sky, but it's really the earth that⁸ spins as it goes around the sun.

My Dream Trip

My name's Becky. I love travelling and, one day, I'd like to go around the world. When I'm older and I've finished school, I will travel around the world for a year! It will be great!

I read lots of books about different places around the world and I dream about all the places I want to visit. I have already planned where I want to go when I'm older. I know which countries I want to visit and what I want to see when I'm in each one.

First, I'll go to China and walk along part of the Great Wall. What an experience! Did you know that it's 6,400 kilometres long! It's incredible to think about all the people in the past who have walked along that wall.

After China, I'll go to Thailand. I'd like to travel through the busy streets of Bangkok in a rickshaw.

I'll stop at a street market and try the food. I love spicy food and Thai curry is my favourite meal. I like the mixture of sweet and sour flavours.

My next stop will be Borneo, in Indonesia. I'm interested in wildlife, and Borneo's forests are the home of orang-utans, rhinos and leopards. However, there are some scary animals in the forest, too, like snakes and poisonous spiders. So, maybe I won't spend too much time in Borneo!

After Borneo, I'll visit Australia. It's got sun and beaches, so it's the perfect place to relax. My favourite sport is surfing, and Australia has some of the best surfing beaches in the world. I could also learn to dive and look at the coral reefs. The water in Australia is very clear, so I could see lots of fish. I wish I was there now! Unfortunately, I have to wait until I'm old enough!

2 Read again and complete the sentences.

- 1 Becky's favourite food is cooked in Thailand.
- 2 The Great Wall is in China.
- 3 Becky can do her favourite sport in Australia.
- 4 Becky will travel in a rickshaw in Thailand.
- 5 Becky can learn a new sport in Borneo.
- 6 Becky will see lots of wildlife in Borneo.
- 7 The water is very clear in Australia.
- 8 Becky is worried about the scary animals in Borneo.

Films in English

1 Read. Underline *when* and *because*.

SEQUELS

► **What is a sequel?**

A sequel is the next part of a story. For example, *Toy Story 2* and *Toy Story 3* are sequels to *Toy Story*.

When a film is successful, the film company often decides to make a sequel.

► **The Lord of the Rings series**

The *Lord of the Rings: The Fellowship of the Ring* has got a lot of sequels because the films are based on a series of books by J. R. R. Tolkien. When *The Hobbit: An Unexpected Journey* was made, it was the fourth film in the series. However, the film is actually a prequel because the story comes before all the other *Lord of the Rings* films.

► **Why are sequels popular?**

People enjoy watching sequels because they get to see their favourite characters in new adventures. Some sequels are more popular than the first film in the series. When *X-Men* was released in 2000, it was very popular, but more than 30 percent more people went to see the sequel, *X2*.

2 Answer the questions

1 What do film companies often decide to do when a film is successful? They often decide to make a sequel.

3 Why has *Lord of the Rings: The Fellowship of the Ring* got a lot of sequels? _____

2 Why do people enjoy watching sequels? _____

4 What is a prequel? _____

3 Connect the sentences. Use *when* or *because*.

1 I started school. I met my best friend.
When I started school, I met my best friend.

3 The sequel is more popular than the first film.
It has better visual effects. _____

2 Mum gave me a drink. I was thirsty.

5 We arrived at school. The lesson was about to start.

4 Dad started a new job. We moved house at the same time.

6 Toby was tired. He got up very early.

All about Canada

Questions and answers

We are doing a school project about food around the world. Last week, we made pancakes with maple syrup. They were delicious! I would like to find out more about the history of maple syrup for the project. The Canadian aboriginal people were the first people to collect the syrup, ¹**were they / weren't they?**

Danni

I am doing a school project on the Mounties. I have found lots of information on the Internet and I would like to check some facts:

- 1 The Royal Canadian Mounted Police force started in 1920, ³**did / didn't it?**
- 2 There were mounted police in Canada before 1920, ⁴**were / weren't there?**
- 3 When the Mounties started, women weren't allowed to join, ⁵**were / did they?**

Becca

Yes, that's right. They made holes in the maple trees and collected the syrup in buckets. They used the syrup to cook a special meal of deer meat for their chief. Today, people use maple syrup for all kinds of food: pancakes, waffles, biscuits, cake and porridge. I'm sure you and your friends loved the pancakes, ²**weren't you / didn't you?**

Your facts are correct! In May 1873, the North-West Mounted Police force was formed. In 1920, this force joined the Dominion Police force and became The Royal Canadian Mounted Police force (or the Mounties). To begin with, only men could join the Mounties but, in 1974, women were allowed to join. In 2006, a woman got the most important job in the Mounties.

2 Complete the questions about Canada. Then match them to the correct answers.

- 1 The Mounties were formed in 1920, weren't they ?
- 2 Danni made pancakes at school, _____ ?
- 3 The aborigines used maple syrup to cook vegetables, _____ ?
- 4 There were mounted police before 1920, _____ ?
- 5 The first women joined the Mounties in 1920, _____ ?

- a Yes, she did. They were delicious.
- b Yes, there were.
- c Yes, they were.
- d No, they didn't. They used it to cook meat.
- e No, they didn't. They joined in 1974.

English around the World

1 Read the text and underline *unless*.

English in the European Union

There are 25 countries in the European Union (EU) – and 24 different languages! English is the main language in the UK and Ireland. English is the most commonly spoken foreign language in most of the other EU countries, too. More than a third of people in these countries say that they can speak enough English to hold a conversation. Three main languages are used for official EU documents: English, German and French. Unless they did this, the cost of translating documents into all the different EU languages would be much too high.

English in the United Nations

The United Nations (UN) uses six official languages: English, French, Spanish, Chinese, Russian and Arabic.

However some people have criticized the UN, saying that it uses English too much. Unless the UN uses all six languages equally, they say, it does not respect member countries equally.

Is English enough?

Two billion people in the world use English to communicate. However, about 75% of people around the world don't speak English. This is why it is important for English speakers to learn another language, too. Unless they understand another language, they won't be able to understand another culture.

2 Read the text again and complete the sentences.
